BORA S

Classical 6 Series

010640

AYRTON has developed BORA S, its new feature-packed 750 W wash luminaire, using a radical approach. Its specific function is to establish the perfect atmosphere for your creative design. Fitted with a frontal 178 mm spherical lens, the proprietary optical system using 13 high-quality lenses was developed specifically for “wash” applications. It features an 8:1 zoom ratio for a wide zoom range from 8° to 64°. The optics produces an extremely uniform flat beam with no hot spot, ensuring a perfectly homogeneous colour mix regardless of the colour combination selected. BORA S is designed for scenic applications. It is equipped with a new LED module calibrated at 8000 K, delivering powerful metallic white light with record-breaking output of 40,000 lumens. Wonderfully sleek and compact, BORA S is example of meticulous workmanship.

Feature-rich from the factory, BORA S includes a CMY colour mixing system, which, combined with a variable CTO and two wheels with six complementary colours each, produces an infinite palette of vivid pastels and saturated colours. The framing section allows accurate positioning of four shutter blades on a 100% surface area in all positions, so that the user can frame any object regardless of the luminaire’s position. BORA S is also factory-equipped with a wheel holding six rotating gobos specially designed for wash-type applications, a variable linear frost and a 15-blade iris diaphragm. Like all AYRTON luminaires, BORA S has a phase-change liquid cooling system using a heat pipe that includes a particularly effective silent ventilation mode. BORA S is particularly suitable for situations requiring a great deal of light output such as concerts or other live entertainment. Designed for total versatility.
